

Project Initialization and Planning Phase

Date	12 July 2026
Team ID	XXXXXX
Project Name	EduGenie – AI Powered Learning Assistant
Maximum Marks	5 Marks

Define Problem Statements (Customer Problem Statement Template):

Student often struggle to understand complex concepts, find relevant study materials, and receive personalized guidance during their learning journey. Traditional learning methods do not provide instant doubt clarification, customized study plans, or interactive explanations. As a result, students waste time searching for resources, feel overwhelmed, and may lose interest in their learning process. How might we build an AI-powered learning assistant that understands students’ needs, provides personalized guidance, curates relevant study materials, explains concepts in an interactive way, tracks progress, and supports them throughout their academic journey seamlessly, easily, and with AI-driven solutions.

Example:

Problem Statement (PS-I)	I am (Customer)	I’m trying to	But	Because	Which makes me feel
PS-1	A student	learn concepts efficiently	difficult to get personalized guidance	traditional learning resources are not interactive	frustrated during learning
